To Whom It May Concern:

I am writing this letter to share my concerns about a very important subject, MB Docket No 04-233

I have been a K-Love listener for over 7 years and have witnessed not only in my family of 4 children but in my business of hundreds of people what it means to have a radio station like K-Love. As a mother of 4 children ranging from 9 years old to 17 years old, if you figure it out my youngest has been listening since he was 2. There is nothing better than to know that #1 they love the station #2 it is safe for their ears to hear #3 there is nothing better to hear them sing the songs they hear and know that they are repeating proper and positive words out.

As for my business for the last 7 years I have always played this station as our daily music channel. It brings a most positive environment and peaceful feeling for all who come into our office. I cannot tell you the amount of people who comment when they walk in for service. Some ask what station is this and others say "Oh you listen to K-Love".

This is a testimony of just how important this station is to a family and a group of people who run their lives and business by what they hear on this most needed station. I would be deeply saddened to see it go. It would be a terrible thing for families and business' across the United States.

We need a place to go on the radio that we can feel and hear about God's love for his people. There is definitely enough of those other stations that share about everything else in our world that is corrupt and sinful.

I hope this letter falls into the hands of people who care about others and have the understanding of what a radio station like this means to hundreds of thousands of other people.

From the Heart,
Sharon Young
